PROFESSIONAL SUMMARY

Engineering Manager with 11+ years of software engineering experience, including 3+ years directly managing, hiring, and scaling high-performing frontend and full-stack engineering teams. Experienced in guiding complex backend and frontend architecture discussions (HLD/LLD), executing active performance management, and driving AI enablement across the SDLC to boost developer productivity. Proven track record of aligning engineering roadmaps with business OKRs while cultivating high-performing engineering cultures.

CORE COMPETENCIES

- **People & Team Leadership:** Direct People Management (8 Direct Reports), Performance Support Plans, Technical Hiring & Onboarding, Career Coaching, Capacity & OKR Planning
- **AI Strategy & Enablement:** Generative AI Integration in SDLC, AI Marketplace & Plugin Ecosystems, Custom AI Agents (Operational Reviews, Error Debugging), AI Governance & Safety Guardrails
- **Technical Domain & Architecture:** Frontend Platforms, Micro-frontends, React, TypeScript, JavaScript, Node.js, Mobx, Zustand, GraphQL, System Design, Open Policy Agent (OPA), Platform Reliability (SLA/SLO Ownership), Kotlin, PostgreSQL, Event-Driven Architecture, REST APIs, AWS, Kubernetes, Grafana, Sentry

PROFESSIONAL EXPERIENCE

Zalando SE | Berlin, Germany

Engineering Manager

May 2024 – Present

- **Full-Stack People Leadership:** Directly manage a team of 8 full-stack engineers. Lead performance evaluations, career development pathways, and performance management—including successfully driving Performance Support Plans to coach team members back to high-yield outcomes.
- **Architecture & System Design:** Guide High-Level Design (HLD) and Technical Design discussions across a multi-tier backend and frontend architecture.

- **AI Transformation & Tooling:** Drive team-wide AI adoption across the software delivery lifecycle. Designed an **Internal AI Marketplace** with shareable skills/plugins (automated error debugging, DB connection automation) and launched a custom **AI Agent for Weekly Operational Review** meetings.
- **AI Governance & Culture:** Established safety guardrails for AI tool usage, hosted show-and-tell sessions, and led knowledge-sharing workshops to upskill engineers on emerging AI practices.
- **Hiring & Strategic Alignment:** Lead technical hiring pipelines and onboarding strategies while partnering directly with Product, Design, and Platform Leads to align delivery schedules with quarterly OKRs.
- **Operational Excellence:** Set SLO/SLA standards and platform observability patterns using Grafana and Sentry to optimize delivery pipelines and reduce incident response times.

Senior Software Engineer

2022 – April 2024

- Delivered enterprise frontend applications for retail center operations with end-to-end technical ownership.
- Spearheaded cross-team reliability and testing initiatives, improving system stability and application uptime.
- Mentored junior and mid-level software engineers, setting code review standards and architecture guidelines across the frontend domain.

Paytm (One97 Communications Ltd.) | New Delhi, India

Senior Software Engineer

2020 – 2022

- Led frontend architecture and delivery for core Merchant Dashboard and Unified Merchant Portal (UMP) platforms.
- Refactored monolithic codebases to micro-frontend architecture, enabling decoupled deployments and improving team release autonomy.
- Enhanced CI/CD deployment pipelines using Sonar and automated linting integrations.
- Optimized web delivery assets, achieving measurable score increases in Google Lighthouse performance audits.

Development Bank of Singapore (DBS) | Hyderabad, India

Software Engineer

2017 – 2020

- Developed internal analytics tools, approval portals, and cost analysis dashboards connected via enterprise RESTful APIs.
- Built reusable UI component libraries to standardize design patterns across internal engineering teams.

Infosys | Hyderabad, India

Systems Engineer

2015 – 2017

- Engineered smart forms, modular UI components, and real-time error visualization portals for ERP operation systems.

EDUCATION

Bachelor of Technology (B.Tech) | Guru Gobind Singh Indraprastha University

2011 – 2015
